Secondary Schools – Courses & Activities

Subject specific:

Our beautiful site serves as a lovely base for exploratory trips as well as providing lovely practical workspace to provide introductory information from or to process any information from the visit.

We can provide support and advice on locations to visit for what your group focus is for any subject area. Subject specific residentials will be self-led but we will support you and make your stay as fun and as smooth as possible. You can choose from self-catering or fully catered to add to the ease of your stay.

We have great classroom space available for your students to study or write up work in. This is separate from the relaxing lounges, so you and your students can wind down after a hard day's work.

We are located near the coast, an area soaked in culture, history and beauty, making us an ideal location for a range of subjects including:

- Art and Design
- Biology
- English
- Environmental Science
- Geography
- Geology
- History
- Media and film
- PE
- Photography

Stays with us also touch on other subject areas like Citizenship, PSHE, Religious Studies.

If you're interested, why not come and see the site.. you are welcome to come for a free weekend to see if it'll work for your group. We are convinced it will.

Activities:

We partner with a number of external activity providers to be able to offer you the best quality provision of incredible activities that Cornwall has to offer. These include:

Atlantic Pursuits

Cornish Rock Tors

Cornish Kayaking

Countryside Hawking

.. more coming soon.

Whatever the aims and focus of your trip, your students will benefit immeasurably. You are likely to see growth in self-esteem, confidence, self-awareness, awareness of others, initiative, perseverance, teamwork skills, responsibility, and build resilience. You will get to know them better than ever before.

Or a combination of the two!

Mix up your stay with a combination of subject focussed content and adventure. We can work together to create your bespoke programme.
